

Dear Mr Cameron

When 1000 people are murdered and no-one is held responsible, this is a crime against humanity, not an arms sales opportunity.

Egyptian dictator El-Sisi's forces killed over **1,000** at Raba'a on 14 August 2013. Not a single government or security official has been brought to account. Cameron has authorised **£40m** in export licenses for military equipment to Egypt in 2015.

Now he is bringing Sisi to the UK for an official visit later this year.

No red carpet for Egypt's dictator - take action now
